Cleanserv VL2-70

Cleanserv VL3-70 I

Cleanserv VL1-15 / VL1-30

Very practical and user-friendly wet & dry vacuum cleaners and industrial vacuum cleaners. Their low height and compact design make the machines extremely stable. Both the four-wheel chassis with swivel castors (VL1-15, VL1-30) and the robust chassis with tipper function (VL2-70 und VL3-70 I) provide superior flexibility. The dirt hopper is made from impact resistant plastic. The machines are equipped with bypass-cooled vacuum motors. The Cleanserv VL3-70 I with stainless steel hopper and 3 x 1,200 Watt is perfectly suited for dry-vacuuming dust and shavings or for wet-vacuuming oily residue and fluids.

Technical Data Cleanserv		VL1-15	VL1-30	VL2-70	VL3-70 I
Deployment possibilities		Wet/Dry	Wet/Dry	Wet/Dry	Wet/Dry
Nominal voltage	V/Hz	230/50	230/50	230/50	230/50
Nominal power	W	1,300	1,300	2,600	3,600
Vacuum	mbar	233	233	233	233
Air flow rate	l/sec	56	56	112	168
Bypass motor		Yes	Yes	Yes	Yes
Sound pressure level	dbA	71	71	75	79
Gross dust container volume	l	17	26	62	78
Weight without accessories	kg	13	15	27	34
Cable lengths	m	12	12	12	12
Suction hose length	m	2	2.5	2.5	2.5
Nominal size, accessories	mm	36	38	38	38
